## Mother's day In Malaysia

 **In Malaysia**, 10th May is Mother's day. card in Korean style.

Here it is divided into Mother's day and Father's day. But It has many similarities with Korean Parent's day(8th May). Children prepares flowers, letters and gift.

Greeting Mother's day, Bethany Home students will write cards to married teachers and sing a song for them, they will also write cards to their mothers.

So we took charge of making cards for teachers who has children. We designed the

We gathered data using the Internet and used Korean patterns, the art of folding paper into Korean clothe (Hanbok) and also a tie of Korean. We also used Korean postcard with background that introduces Korean history, food and culture. We made 44 cards and wrote down the message in English and Korean. we are going to make flowers with student during the writing time.

## The happiness of RM1-Nasi Lemak

### How to be happy with RM1-Nasi Lemak

 **Have** you ever imagined about eating three country's cuisine in one country? There are Malay restaurant, Chinese restaurant, Indian restaurant in one street. Wherever you go, you can find this restaurants in any streets? In Malaysia! Malaysia is a multinational country, so it has various cuisine cultures. One of the pleasures that we can get in Malaysia is to eating diverse cuisines.

traditional dish and it is very popular. You can enjoy rice cooked in coconut milk with spicy sambal sauce, fried anchovies, eggs, slices of cucumber and crunchy peanuts. After mixing these materials according to your liking, you can eat it. The price is only RM1! It's not only it is delicious but also it is very cheap.

We will eat Nasi Lemak when we have little money but we'd like to eat heartily. Usually we eat Nasi Lemak with Roti canai. I'll talk about Roti canai next time. See you later!

**Sandy**

Now, I'll talk about Nasi Lemak, which is a Malay

## How to understand HIJAP ?

**When** we were living at KL, we realized that we are facing some obstacles to understand Malay culture. So we have been studying Malaysian culture by ourselves for 10 days. After daily meeting we share the time for Malaysian culture study. Each member prepared for the certain subject that he is interested. We shared our thoughts about the topics after the presentation.

For the next five weeks we will serialize our studies and today I want to introduce to one of the subjects, HIJAB.

According to the presentation, A Hijab that a scarf wore by Muslim women has long history. In the Koran say, women who wears a Hijab are desirable the Mohammed of wives. Muslim women think that Hijab covered with the head and the chest prevents temptation, and also they believe that Hijab can keep their purity. Muslim women know that Hijab has acted one of the restraints on.

Nowadays due to effect of feminism, the wearing of Hijab isn't duty. But when we saw the Muslim woman wearing a Hijab, we thought they are lunatic. Because we saw repeatedly reports from Saudi Arabia has the worst human right within the western broadcasting.

It is hard to judge whether wearing a Hijab encroach on woman's rights or not. To understand this dispute, we have to know the controversy of Islam. Some scholars insist that Islam extends the women's rights. Before birthing Islam, the Islam's birthplace people feel shameful when they were born girl, so the most of people buried babies alive. But after birthing Islam this custom disappeared and people's thoughts have

changed. After that Muslim thinks that man has rights for his wife and also woman has rights for their husband.

The other scholars claim that Islam forced wear Hijab and It is an infringement of women's rights. Besides that, Muslim accepts polygamy and that means Muslim treated women as an object. According to this insistence, France banned people from putting on Hijab at public place.

Muslim women resisted this regulation and they said it is one of racial discrimination. From that occasion, some people wearing Hijab as a means to defiance. Nowadays Hijab are used as fashion item such as perfect gem brand like Prada sells various Hijap.

After the presentation, our members talked about the different kinds of veil such as Hijab, Chador and Burca. Therefore we thought that an insistence which oppose putting on Hijap comes from Muslim women or western.

While we were sharing out thoughts, everyone agreed that we need to study the relationship between Islam and Western. Beside including Islam, we will try to get object views.
